# Technical sheet

**Faceshield - Full frame assembly - 12cal per cm2 arc flash protection**

Marque: HONEYWELL

Ref Product: wire:AS1200HAT

Ref Mcmining: CASAS1200HAT-SALIS

| Description | |
|---|---|
| | **12 cal/cm2, Arc Flash Protection Faceshield Unit w/ Hard Hat**<br><br>AS1200HAT Kits make your Personal Protective Equipment purchasing even easier. These convenient kits contain an AS1200HAT, a ATPV 12 cal/cm2 Kit , safety glasses and an ASBAG. The SKA kits are an ideal kit to use with PPE programs that exceed 8 cal/cm2 or with 8 cal/cm2 to 12 cal/cm2 ATPV rated coveralls and jackets.<br>AS1200HAT ATPV rating of 12 cal/cm2, protection greater than 12 cal/cm2 cannot be achieved.<br><br>Important : The maximum Arc Flash Protection of a kit is equal to the lowest cal/cm2 rating of any component in the selected safety kit. |
| | The AS1200HAT has an ATPV rating of 12cal/cm2 and utilizes nanotechnology to provide a clearer, more transparent window for improved visibility.<br>The shield/window is designed to be easily replaced without tools.<br>The faceshield unit includes ventilation ribs that allow a natural convection air flow through the top of the face shield.<br>This reduces fogging of the visor, lowers CO2 levels and improves comfort for the user. |
| **Optional Accessories** | |
| | Optional accessories for the AS1200HAT include an anti-fog inner lens, attachable task lights, and transparent chin guard.<br>The anti-fog inner lens includes an air spaced design that decreases fogging.<br>The shield meets the ASTM requirements for an Anti-Fog Lens.<br>On both sides of the faceshield is an easily adjustable flashlight clip which holds optional attachable task lights.<br>With these optional task lights, the user is not inconvenienced with holding a flashlight while working.<br>The AS12CLR Transparent Chin Guard dramatically increases the user's peripheral view by increasing visibility on the sides of the faceshield unit. |
