Stinger® Berm 4836-BK-SU

Marque: ENPAC

Ref Product: wire:4836-BK-SU

Ref Mcmining: EN4836-BK-SU

Description	
The ENPAC Corporation Part number 4836-BK-SU Stinger - Berm uses unique snap-up sidewall supports mounted on the exterior; there is nothing to interfere with the interior berm space or present decontamination concerns. . Sidewalls are supported outside of the containment system; to exit or enter the straps must be released. The straps may be reversed or replaced. Collapsible sidewalls with counterbalanced outside locking supports; easily folds to a neat, compact size - stores anywhere; light-weight and portable; helps you comply with 40 CFR 264.175 and 40 CFR 112.7 (h); can also be used for water storage or a decontamination basin; heavy-duty fiberglass strap supports/gives unit rigid upright walls; includes strap/keeps unit securely folded for storage and transport; grommets on each support strap/allows unit to be secured to ground when needed. The Snap-Up Berm is made of rugged and resistant 30-oz./32 MIL materials. The available colors are Black or Sand and O.D Green; Black/Yellow others available upon request.
