LEADER IN INDUSTRIAL TOOLS & EQUIPMENT

Technical sheet

Gloves: Rubber Insulating Gloves

Marque: NORTH

Ref Product: wire:E011R/9

Ref Mcmining: GANE011R/9-NORTH

Specification:	
	11" Class 0 Red Rubber Gloves Rubber Insulating Gloves by Salisbury are among the most important articles of personal protective equipment for electrical workers. They are the first line of defense for contact with any energized components or lines. Combining high dielectric and physical strength, flexibility, and durability, Salisbury rubber insulating gloves have earned the reputation for superior performance - meeting and exceeding the requirements of current ASTM D120 and the NFPA 70E Standard. Most Salisbury insulating gloves are available in sizes 7 through 11. Proper fit is important to minimize chafing and fatigue. Allow for additional room if fabric glove liners are to be worn, especially with thermal liners. All rubber insulating gloves are extremely flexible and make working with small parts easy. **MADE IN USA**
Certification:	The gloves meet or exceed ASTM D120, NFPA 70E and IEC 60903 Standards.
Class:	0 (1000 volts AC maximum use voltage)
Color:	red, black, yellow, blue, blue in orange out, black in yellow out
Material:	Natural rubber
Size:	7, 8, 8H, 9, 9H, 11
