Technical sheet

Abrasive - Disc STARLINE - GRINDING WHEEL 230X6.4X22.23MM

Marque: NORTON

Ref Product: wire:66252837269

Ref Mcmining: NOR66252837269

Description
Grinding wheel Angle Grinder Norton STARLINE-METAL INOX-230x6.4x22.23
Norton Starline provides a complete, convenient offer for all metal work applications with a full range of sizes for angle grinders. Provides good material removal rates, fast cutting, reduced vibration for comfortable working and consistent performance for improved part quality.
features
- universal applications
- new capabilities in metal work
- Optimized to work with low and power machines
- safety
- effortless and free cutting
- Optimal quality to price ratio

Benefits
- universal and complete product ran developed for low power machines
- works with all applicable angle grinders
- fast metal removal
- Comfortable in use
- low vibration
- no wheel chipping during grinding
Technical specification :
Dim :230x6,4x22,23 mm
M/s : 80
Specification : A24Q-BF-80
Type : 27
Product uses : STEEL
