Nano-Lok XL Quick Connect Self Retracting Lifeline - Web

Marque: DBI-SALA - USA

Ref Product: wire:3101620

Ref Mcmining: LAN3101620-PROTECT

Features:	
- 2.8m of 20mm DyneemaÂ® fibre and polyester web lifeline - The synthetic lifeline reduces overall weight and the retractable design provides freedom of movement, keeps the lifeline out of the worker\'s way and reduces dragging, snagging and trip falls. - Aluminium Scaffold hook on lifeline - 57mm opening - Extremely compact, lightweight design - The device is virtually unnoticeable on your back, stays out of the way and can be easily used as a lanyard replacement. - Tough and impact resistant thermoplastic housing - Compact and durable housing is designed to withstand the demands of challenging jobsites, it\'s built to last. - Quick activating speed sensing brake system - Stops a falling worker within inches, providing more protection at low heights. Designed for smooth consistent operation allowing the user to maintain normal work pace and not be interrupted with constant lock ups. - High capacity external energy absorber and impact indicator - Specialized built-in external absorption system maintains safe fall arrest forces for users and tools up to 140kg and provides a visual alert that the SRL has been involved in a fall. - i-Safeâ„¢ equipped - A built-in RFID identification tag helps the user record and store information on inspections.	
Specifications	
Capacity	140 kg
Size	2.8m
iSafe Equipped	Yes
Lifeline Length	2.8m
Housing	Nylon Thermoplastic
Lifeline	3/4" (19mm) wide Dynema polyester web
Lifeline Hook	Aluminium
Physical Weight	1.50 kg (3.3lbs)
Product Styles	Single Lifeline
Product Types	Harness Mounted
Mounting Type	Direct to Harness Back
Weight Group	Less than 2.3kg (5 lbs)
Inertia Reel Type	Mini
Inertia Reel Length	0-3m
CERTIFICATION	
	CE EN360:2002 (Not sharp edge)
