Technical sheet

Bohler - Stick electrode, unalloyed, basic coated - Q E E7018-1 3,2x350mm

Marque: BÖHLER- GERMANY

Ref Product: wire:81501

Ref Mcmining: SOUD81501-BW

Description
81501
Stick electrode, unalloyed, basic coated BÖHLER Q E E7018-1 3,2 x 350mm Basic coated electrode engineered for high-quality welds. Excellent strength and toughness properties. Also suitable for welding steels with low purity and high carbon content. Metal recovery > 110%. Good weldability in out-of-position work except for vertical-down.
Suitable for welding in steel construction, boiler and container fabrication, vehicle construction, shipbuilding, and machine construction as well as for buffer layers when building up on high carbon steels.
Classification du produit
AWS A5.1 / SFA-5.1: E7018-1H4 EN ISO 2560-A: E 42 5 B 42 H5
