Technical sheet

CAST IRON-ELECTRODE GHIS A5.15 D 2.5X300-PCS 12 BLISTER-STANLEY

Marque: STANLEY

Ref Product: wire:90028

Ref Mcmining: SOUD90028-STANLEY

Description	
90028 CAST IRON-ELECTRODE GHIS A5.15 D 2.5X300-PCS 12 BLISTER-STANLEY Stanley A515 Cast Iron Welding Electrodes in Blister 2.5mm High-Quality Stanley A515 Cast Iron Welding Electrodes Designed For Precision And Durability. Ideal For Repairing And Welding Cast Iron Parts, Offering Excellent Arc Stability	
Technical specification	
Product Type	Cast Iron Welding Electrodes
Pack content	12 pieces
Diameter (Ø)	2.5 mm
Length	300 mm
Usage	Repairing and welding cast iron
Compatibility	Standard welding machines
Packaging	Blister pack
