Image not found or type unknown	**PVC slotted Pipe BLUE UPVC SLOTTED 0.8mm - ONE BELL AND BOTH THREADED ENDS** Marque: Ref Product: wire:FORPIPESLOTTED0.8 Ref Mcmining: FORPIPESLOTTED0.8

Description	
PVC slotted Pipe BLUE UPVC SLOTTED 0.8mm PIPES WITH ONE BELL END AND BOTH THREADED ENDS Tuyau PVC fente 0,8mm, D125mm, TH 6mm, L2,9m 1bout cloche, 2 bout fileté light weight, convenient handling,loading an unloading Corrosion resistance (acid resistance, alkali resistance…)s excellent drug properties Low fluid resistance Hight mechanical strength Good electrical insulation Doesn't affect water quality Good water tightness Easy construction	

APPLICATION	
- Tap water engineering, - drilling engineering, - electrical engineering, - construction engineering, - sewer engineering, - electric wire engineering, - natural gas engineering, - chemical factory, - papper factory, - electroplating factoty, - agricultural field, - mine, - aquaculture industry, - highway engineering, - golf cource engineering, - fishery, - fermentation factory…	

APPLICATION	
Density :	1350 – 1460
Softening temprature :	?80°C
Drop hammer impact test TIR:	?5%
Hydraulic test:	No crack, no leakage
Join seal test:	No crack, no leakage
Content of vynil chloride monomer:	?1.0mg/kg
Standard :	**GB/10002-2006**

	GB/T17219-1998 (Health performance)
Length	2.9M
OD mm	125
epaisseur mm	6
